

Minutes of the meeting

Subject: **"Dredging of the Jegrička Stream within the ECOWAM project"**

Ref. no: **HUSRB/1602/11/0010-TD-02**

Meeting point/Location – **Jegrička Stream, Info Centar, Temerinski put BB (section 29+588 – Temerin Bridge)**

Site visit location: **Jegrička Stream, section km 29+588—37+892 and km 44+015—46+673**

Date: July 3 2018

Briefing: **Briefing started at 11:00 AM local time**

Mina Jakovljević Zavarko, engineer and Jasminka Gajer, project administrator held a meeting with potential bidders who expressed interest to participate in tender for Works on sludge removal from Jegrička Stream at sections km 29+588—37+892 and km 44+015—46+673.

The participants have been briefed on the location of future works through the situation map and design: "Sludge and Reed Removal at Jegrička Nature Park area under 2nd degree protection" Notebook 1 – hydrotechnical solution.

We presented the canal location at section km 44+015—46+673 on a situation map. Since the section was not set up for execution of works, the participants have agreed not to visit it. Technology of execution of works has been presented and all items from relevant Bill of Quantities have been observed.

Site visit:

Site visit started at 12:00 from section 29+588 (Temerin Bridge) which was reached by boats, going upstream approximately to section 35+000 km in order to get the best insight into the most critical and complicated section for execution of works. Site visit was finished at 13:00 h local time.

All attendees were briefed on works being performed at the area under 2nd degree protection i.e. that execution of works must be performed in the period stipulated by the Institute for Nature Conservation of Vojvodina Province, stated in the Decree No. 03-2999/2 dated 22/12/2016 which is a constituent part of Abstract of the design.

The participants have been informed that current water level at section Sirig–Temerin from km 29+000 to km 38+000 is at the maximum level due to current rainfall but in drainage conditions,

minimum water level can increase up to 75.70 masl. The participants have also been informed on the fact that Jegrička Stream and the inspection path along the stream are property of the Republic of Serbia while PWMC Vode Vojvodine enjoy the right of use. Also home, fence and wooden dock owners have been timely notified that they should remove all of their structures situated along the Jegrička Stream. (Local self-government representatives and farmers and have been informed about this matter in workshops held on 12 December 2017 and 15 March 2018).

Potential bidders have been given the certificates on site visit which will form a constituent part of tender documentation. They have also been informed that they can ask any further questions via email enclosed in tender documentation, respecting the deadline stipulated in the Instruction to tenderers.
